EXECUTIVE SUMMARY

Assam had three waves of flood in 2024 causing substantial loss of lives and property and severely impacting the economy of the State. All 35 districts have been affected this year with 42.95 lakh people in 7794 villages of 35 districts affected. The death toll due to floods and landslides has been 121, besides substantial damages to standing crops, infrastructure like, roads, bridges, irrigation facilities, health facilities, schools, Livestock population etc.

The State Government has undertaken massive rescue and relief operation in the State in all waves of flood. Based on initial ground assessment carried out with the help of District Administrations and the Departments of the State Government, the total damages to infrastructure and fund requirement for relief and immediate restoration works had been estimated at Rs. 534.45 Crore in the Interim Flood Memorandum submitted to the Government of India on July 22, 2024. An Inter-Ministerial Central Team (IMCT) also visited the state in the July 17-20, 2024 to assess the intensity of damages. However, the state also experienced one more wave of flood after submission of Interim Flood Memorandum and the visit of IMCT, causing more devastation.

As such, based on the damage reports received from the Districts and the Departments, this final Flood Memorandum has been prepared seeking an amount of Rs. **570.92** crore approximately including the estimated expenditure of Rs.241.97 crore for payments of ex gratia to the Next of Kins and rescue and relief operation. Estimated cost of works other than rescue and relief operation is Rs.328.95 Cr. that includes assistance for crop damages to Small and Marginal Farmers, assistance for loss of livestock, fish seeds, handloom and textile, housing and immediate repairing and restoration of damaged infrastructure. Actual damage of ponds is estimated to be Rs. 15.66 Cr.

Requirement of fund for repairing and restoration of immediate nature for various infrastructure damaged during the flood in 2024 has been estimated as Rs. 1227.39 Cr. However, amount admissible as per SDRF/NDRF norms is Rs. 116.82 Cr. which is reflected in flood Memorandum 2024. As such, Rs. 1110.57 Cr. as additional fund requirement beyond admissible SDRF/NDRF norms has been estimated by the departments for immediate restoration and recovery measures which makes the total fund requirement for various works amounting to **Rs.1681.49 Cr** (Rs. 570.92 Cr + Rs. 1110.57 Cr).

The State is in need of large scale financial assistance to recover from the extensive damages and losses due to floods. The fund allotted for the State under SDRF will not be sufficient to meet the expenditure. Assistance from NDRF will immensely help the state to recover at the earliest.

1. Introduction:

Assam is situated in the Northeastern region of India with a geographical area of 78,438 sq. km. It constitutes about 2.4% of the country's geographical area. The State has 35 districts with total population of 3,11,69,272 (as per 2011 census). Most of the inhabitants of the state live in the valleys of the Brahmaputra and the Barak river.

2. Floods in Assam:

Assam is one of the most flood prone states in India. The State faces acute flood problem in the flood plains of the river Brahmaputra and Barak and other smaller river sub-basins. The extremely dynamic monsoon regime vis-à-vis the unique physiographic setting of the basin has been considered as the single most important cause for frequent occurrence of flood in this region. Historical analysis of the last fifteen years shows the problem of flood and its impact on the population every year.

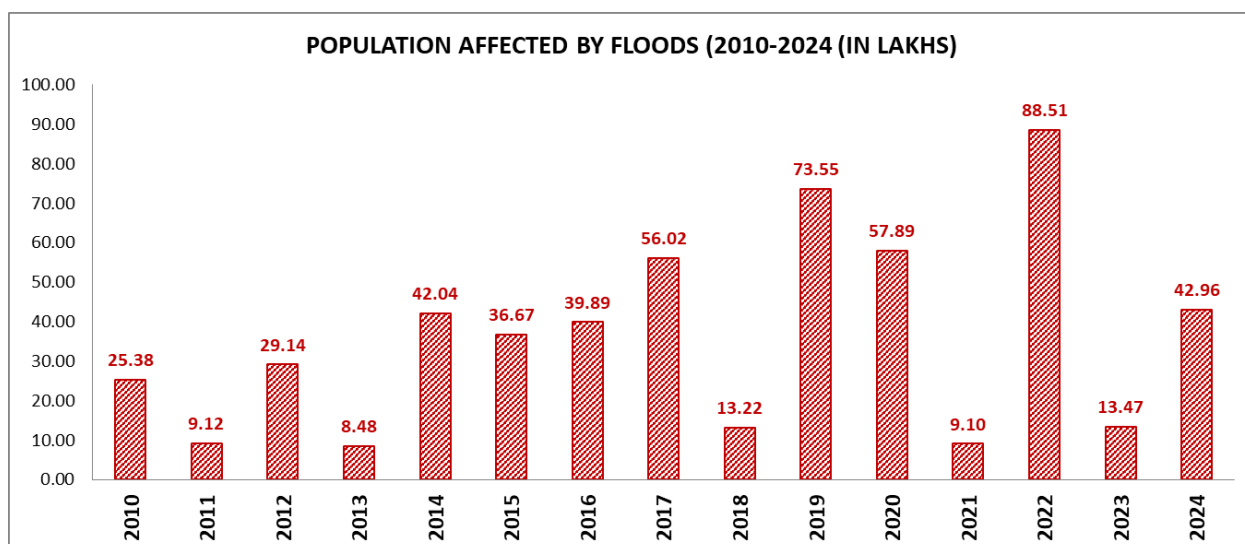

Figure 1: Graph showing Population Affected by Floods from 2010-2024

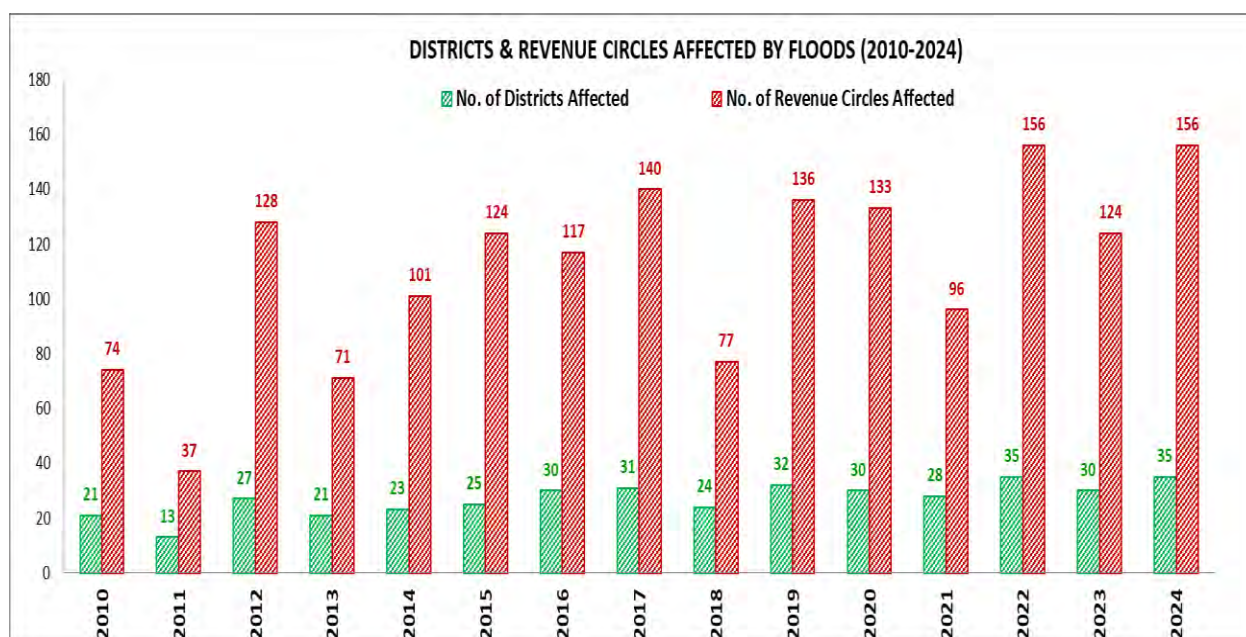

Figure 2: Graph showing Districts and Revenue Circles Affected by Floods from 2010-2024

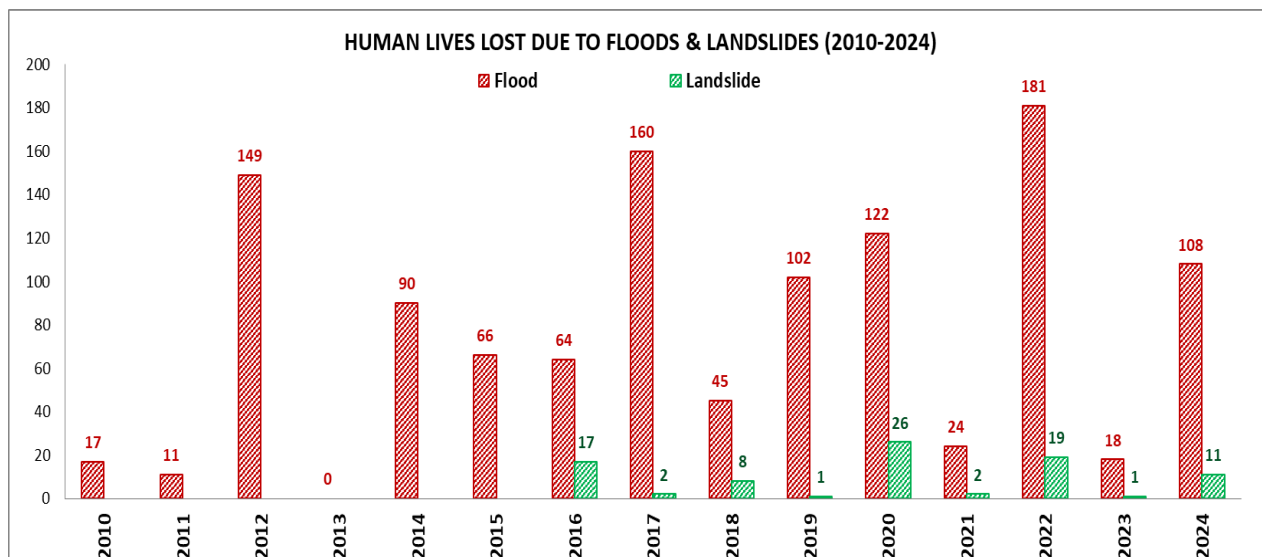

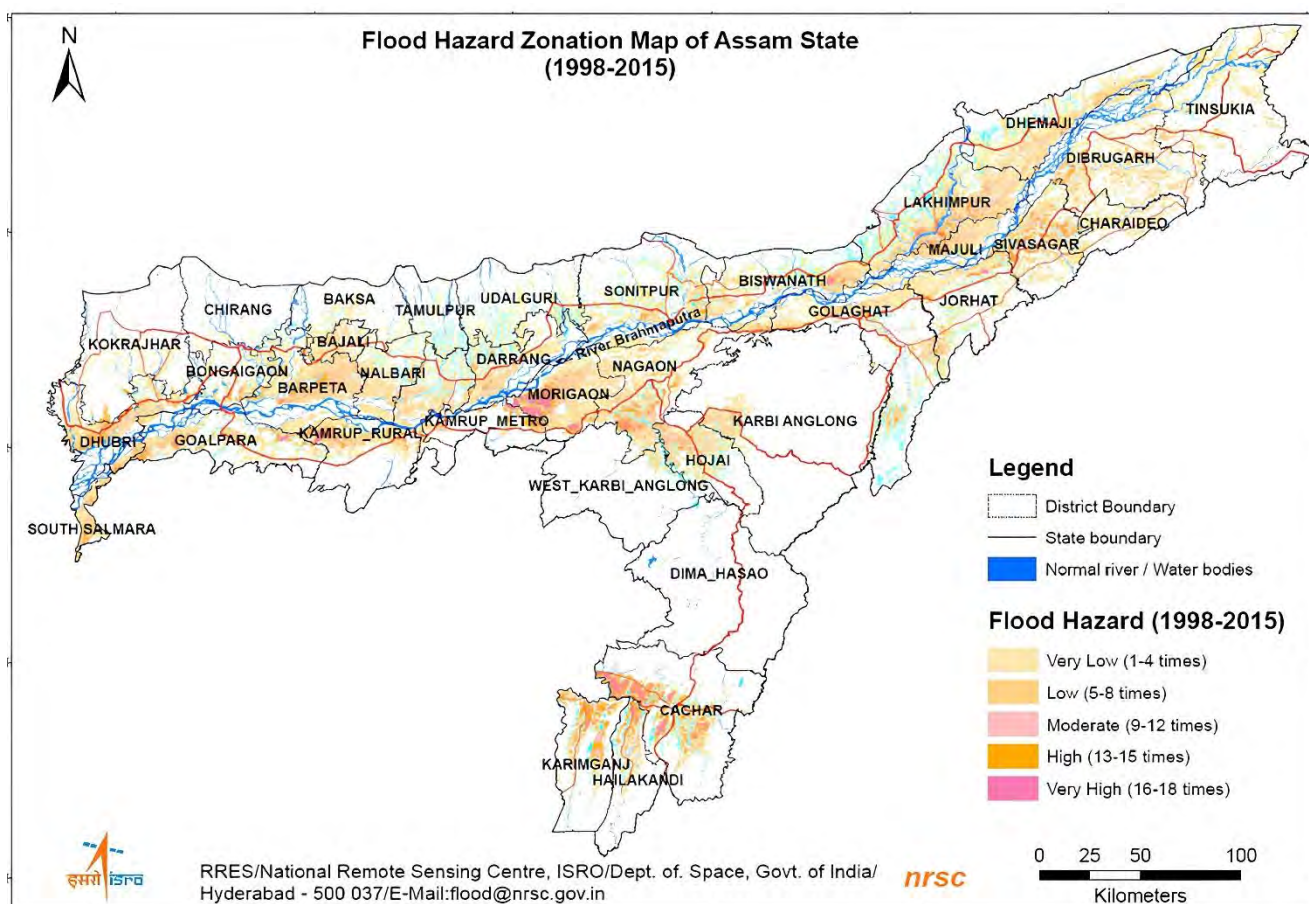

Figure 3: Graph showing Loss of Human Lives due to Floods and Landslides from 2010-2024

As per the Flood Hazard Atlas of Assam prepared by National Remote Sensing Centre (NRSC), Hyderabad using satellite data, about 28.75% (22.54 lakh hectares) of land in Assam state is affected by flood during 1998-2015.

Assam falls in the highest rainfall intensity zone of the country. The precipitation here is mainly due to the South-West monsoon i.e. June to September. Average annual rainfall in the region is very high and ranges from 1750 mm in the plains to about 6400 mm in the hills. High rainfall in the state & upper catchment in the neighbouring states like Arunachal Pradesh, Meghalaya, Nagaland, Mizoram, Manipur and neighbouring country (Bhutan) causes severe floods in Assam almost every year. This huge volume of water rushes through the narrow bowl shaped valley of Assam to the Bay of Bengal ravaging the area through which it flows with floods and erosion.

Assam comprises of a large network of rivers and tributaries. These rivers and tributaries originate from the Upper Catchments with high gradient and join Brahmaputra and the Barak river to form a highly dynamic and complex river system.

The length of the Brahmaputra River is 2880 km has a catchment area of 5,80,000 Sq. km in Tibet, Bhutan, China, India and Bangladesh and in terms of discharge, it is the third largest river in the world.. The River flows for a length of 640 Km through the plains of Assam (Tinsukia to Dhubri). In this valley, about 64 tributaries on its North bank and about 38 on its South bank join the river Brahmaputra. The total length of embankment in Assam is 2745 Km.

The river Barak is the second largest river in the North East, originating from Nagaland and Manipur, it traverses a length of 225 Km in Assam and flows into Bangladesh. The total number of tributaries joining the Barak river within its Assam reach is around 10 and the number of sub tributaries joining the main tributaries is around 5. The catchment area of tributaries ranges between 300-4200 sq. km. and that of the sub tributaries ranges between 100- 2000 sq. km. Total length of embankment in Assam is 526 Km.

The extreme monsoon regime vis-à-vis the unique physiographic setting of the basin has been considered as the single most important cause for frequent occurrence of flood in this region. Besides, deforestation in the upstream areas lying in Arunachal Pradesh, Meghalaya, Nagaland, Mizoram, Manipur and Bhutan is resulting into excessive siltation and runoff, decreasing the carrying capacity of major rivers and tributaries.

Assam has approximately 5,000 Km of embankments constructed on the recommendation of Rashtriya Barh Aayog as short term measures in the decades of 1950s and 60s. The embankments have outlived their lives.

2.1 Assam Floods in 2024:

This year , Assam has faced three waves of floods till date, which have affected all the 35 districts of the state , resulting in loss of human lives, livestock and large scale damage to the dwelling houses, standing crops, infrastructure like roads, bridges, embankments, schools, AWCs etc.

Notified Flood season starts in Assam from 1st May till 31st October every year and during the period ASDMA generates daily flood situation reports digitally through DRIMS (Disaster Reporting and Information Management System). Each Revenue Circles of Assam submits an online situation report through its respective DDMA in the DRIMS portal. Following districts have been affected in flood this year viz. Bajali, Baksa, Barpeta, Biswanath, Bongaigaon, Cachar, Charaideo, Chirang, Darrang, Dhemaji, Dhubri, Dibrugarh, Goalpara, Golaghat, Hojai, Jorhat, Kamrup, Kamrup Metropolitan, Karimganj, Kokrajhar, Lakhimpur, Majuli, Morigaon, Nagaon, Nalbari, Sivasagar, Sonitpur, Tamulpur, Tinsukia, Udalguri, Karbi Anglong, West Karbi Anglong, South Salmara, Dima Hasao & Hailakandi.

Preparedness measures taken by ASDMA before flood:

As part of the flood preparedness initiatives, Assam State Disaster Management Authority (ASDMA) had conducted six thematic meetings for flood preparedness 2024 i.e. **(i) Coordination for Response with responding agencies, (ii) Critical Infrastructure Preparedness, (iii) Ensuring continuity of services viz. Health, Water & Sanitation, Education, Social welfare services etc., (iv) Relief Camp Management, (v) Risk communication and (vi) Reporting and Damage Assessment as part of its preparedness this year with various stakeholders.** Besides, ASDMA also conducted Video conferencing with the DDMA to review flood preparedness and the designated Nodal Officers from state HQs visited districts to review their flood preparedness at the district level. The Chief Secretary to the Govt. of Assam chaired State level flood preparedness review meeting.

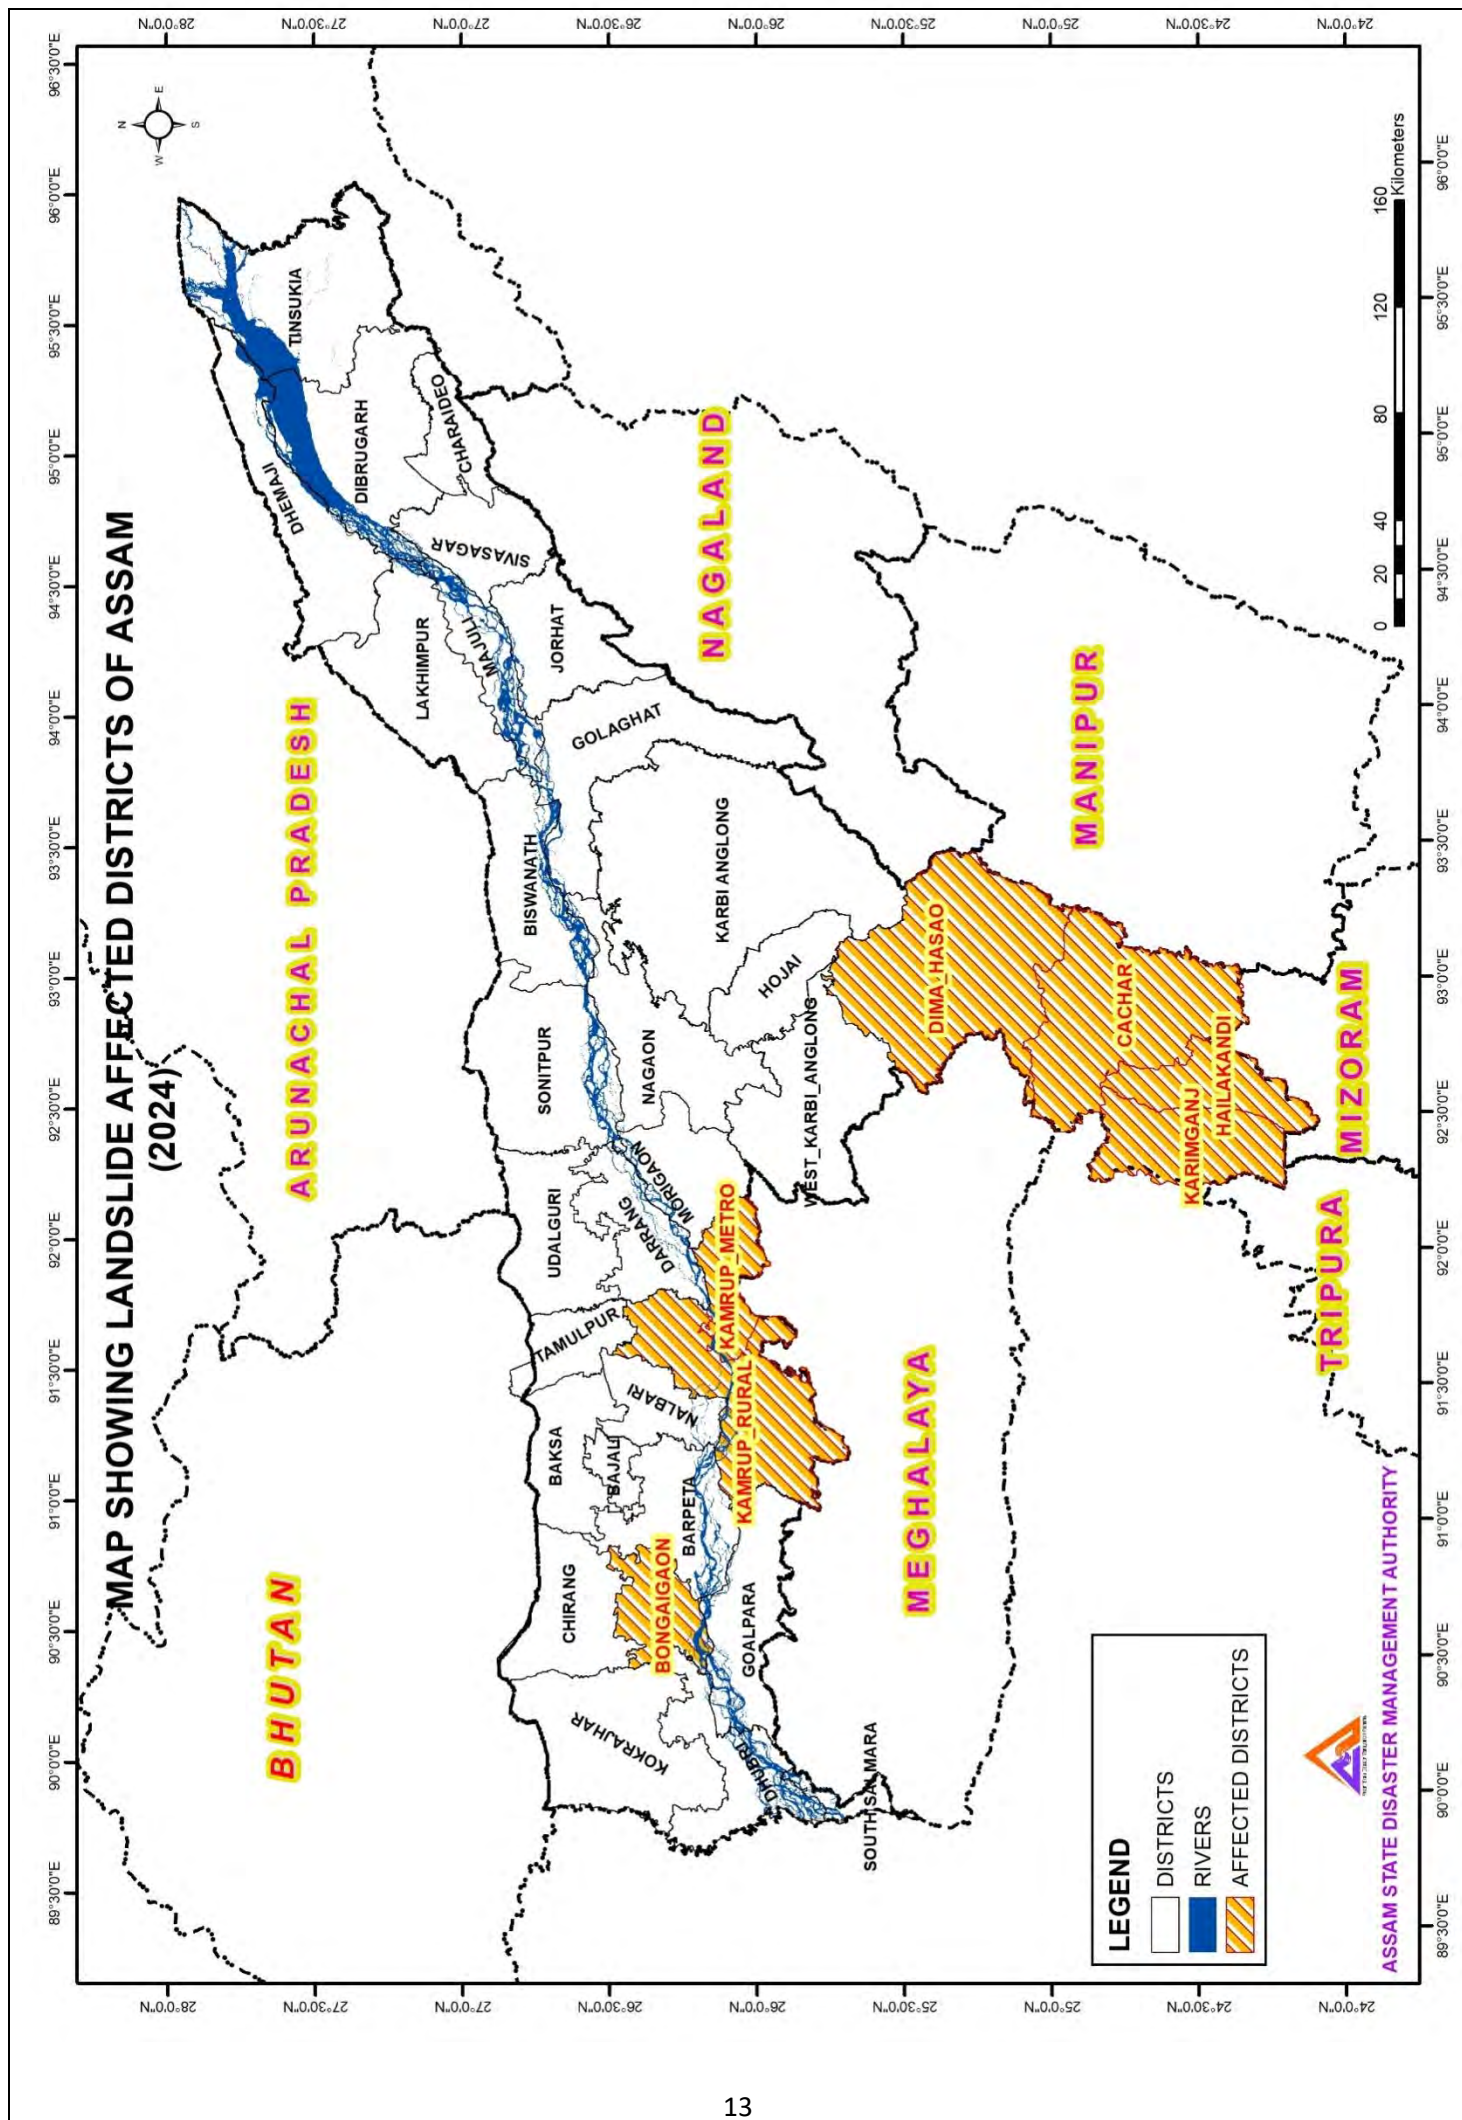

NDRF teams from 1st Bn. and 12th Bn. have been pre-positioned at eight (8) strategic locations of the state of Assam namely Silchar, Jorhat, Guwahati, Barpeta, Bongaigaon (1st Bn.), Dibrugarh, Tezpur, Titabor (12th Bn.) for effective and prompt response during flood. Besides, five companies of State Disaster Response Force (SDRF) were also deployed in 53 locations of Assam along with rescue boats and deep divers. Besides, ASDMA also deployed rescue boats and AAPDA Mitra volunteers in certain vulnerable locations. These proactive preparedness measures lead to substantive reduction of human lives lost and properties during the flood as compared to the severity of the flood situation.

Further, ASDMA receives FLEWS (Flood Early Warning System) alerts from North Eastern Space Application Centre (NESAC) within 12 to 48 hrs lead time in the category of Low, Moderate, High and Very High alerts and these alerts are disseminated to DDMA, Revenue Circle Offices, concerned authorities of the Govt. of Assam and other response agencies.

More than 4000 relief camps and shelter places were pre-identified during pre-monsoon period as a part of flood preparedness by DDMA.

2.5 REASONS FOR THE ASSAM FLOOD 2024:

- The State has a large network of rivers & tributaries originating from the Upper catchments with high gradient.
- 1st wave of flood occurred due to cyclonic storm “**Remal**” which triggered heavy to very heavy rainfall in Assam and in the neighboring States. **Arunachal Pradesh, Assam, Manipur, Meghalaya Mizoram, Nagaland** and **Tripura** recorded an excess rainfall with **68%, 231%, 374%, 445%, 194%, 171%** and **205% deviation** from the normal from 28th -31st May, 2024 affecting a population of around 6.25 lakhs on 3rd June, 2024.

PERIOD: 28th -31st May, 2024

SL. NO.	STATES	ACTUAL RAINFALL (mm)	NORMAL RAINFALL (mm)	% DEPARTURE
1	ARUNACHAL PRADESH	79.8	47.5	68
2	ASSAM	146.7	44.3	231
3	MANIPUR	157.3	33.2	374
4	MEGHALAYA	353.2	64.8	445

6	NAGALAND	65.1	24	171
7	TRIPURA	182.3	59.7	205

Source: RMC-IMD Borjhar

- Eventually situation started improving after 4th June, 2024. However, rainfall activities in Arunachal Pradesh and Assam resulted the 2nd wave of flood with a single day steep rise of affected population to **24.21 lakh** on 05th July, 2024. Arunachal Pradesh recorded an excess rainfall of 93% during the period 25th-30th June, 2024.

PERIOD: 25th -30th June,2024

SL. NO.	STATES	ACTUAL RAINFALL (mm)	NORMAL RAINFALL (mm)	% DEPARTURE
1	ARUNACHAL PRADESH	214	110	93
2	ASSAM	86.5	91.2	-5
3	MANIPUR	48.9	63.8	-23
4	MEGHALAYA	159.7	164.8	-3

- Moreover, incessant rainfall in Bhutan and neighbouring states of Arunachal Pradesh, Nagaland as well as the release of water from Kurichhu Dam, Bhutan are other important causes for floods in lower Assam districts.

TOTAL REQUIREMENT OF FUND FOR RESCUE & RELIEF OPERATION (₹241.97 CRORES) + WORK OTHER THAN RESCUE & RELIEF OPERATION (₹328.95 CRORES) = ₹ 570.92 CRORES

6.0 Conclusion:

Hon'ble Chief Minister of Assam reviewed the flood preparedness of the state on July 03rd, 2024 involving various stakeholders, including state and central government departments, autonomous councils, and District Commissioners/ DDMA's of Assam. Hon'ble Chief Minister instructed all the District Commissioners to establish effective coordination with NDRF and SDRF teams, to ensure a prompt response when required.

Based on the ground assessment by the District Administration/ District Disaster Management Authorities (DDMA's) and concerned line departments of the State Government, total requirement of funds covered under SDRF/NDRF for rescue & relief operation (₹241.97 crores) + work other than rescue & relief operation (₹328.95 crores) = ₹570.92 crores [in words Rupees Five Hundred Seventy Crores and Ninety Two Lakhs only]. However, estimated total fund requirement for various works is amounting to **Rs.1681.49 Cr.** [in words Rupees One Thousand Six Hundred Eighty One Crores and Forty Nine Lakhs only].

Government of India is therefore, requested to provide financial assistance and help the State to recover from the severe damages caused by the multiple waves of floods in 2024.

GOVERNMENT OF ASSAM
REVENUE & DISASTER MANAGEMENT (DM) DEPARTMENT
DISPUR, GUWAHATI

ORDERS BY THE GOVERNOR OF ASSAM
NOTIFICATION

I/641614/2024 17-07-2024

ECF. No 523205/56 : In pursuance of the provisions prescribed in the revised items and norms of assistance from the State Disaster Response Fund (SDRF) and National Disaster Response Fund (NDRF) for the period 2022-23 to 2025-2026 notified by the Ministry of Home Affairs (Disaster Management Division) Government of India vide No. 33-03/2020-NDM-I dated July 11, 2023 and with the approval of the State Executive Committee of Assam State Disaster Management Authority, the Governor of Assam is pleased to extend financial assistance to families whose livelihood have been seriously affected by flood and other notified natural calamities through Direct Benefit Transfer (DBT) in accordance with the standard operating procedure below:

Selection of families:

1. This transfer of Gratuitous Relief will be applicable to all the families who are not housed in the relief camps and receive Food items as gratuitous relief from relief distribution centres as per details entered in the DRIMS portal.
2. Priority will be given to families whose houses have been washed away/fully damaged/severely inundated for more than two days due to a natural calamity.

Quantum of relief:

1. As Minimum wage under MGNREGA, is Rs. 249/- per day, an amount of Rs. 498/- (@ Rs. 249/- for two adult members of the eligible family per day) will be paid for each day after adjusting the normative cost of gratuitous relief received in kind from the relief distribution centres.
2. An amount of Rs 840/- as assistance will be provided for a period of **three days** through DBT deducting an amount of Rs. 654/- (estimated expenditure incurred in providing GR in kind to affected families for 3 days @ Rs. 218/- per family per day) from the total payable amount of Rs 1494 (@Rs 498/-x 3 days).
3. Families who receive GR in kind for less than three days from relief distribution centre will be provided a lump sum amount of Rs. 300/- (Rs. 498-218 =280 and in round figure Rs. 300)only under this scheme.

Modalities for Direct Benefit Transfer:

1. The Field Officer, Disaster Management of Revenue Circle will prepare the list of eligible families with the help of Circle Level Task Force (CLTF) along with bank

details and PAN /AADHAR/VOTER ID.

2. The Circle Officer of the respective circle will examine the list and forward the same to DDMA for placing before the Guardian Minister as applicable for appraisal and approval.
3. Upon approval of the Guardian Minister, the District Commissioner will forward the list in google form as circulated by the ASDMA.
4. Revenue & Disaster Management Department & ASDMA will carry out necessary verification / examination / correction of the data, take approval of the competent Authority, release the DBT amount and upload the list of beneficiaries in the DRIMS portal and ASDMA website.

Proactive Disclosure:

1. Detailed instructions regarding the application process, eligibility criteria, and disbursement timelines will be communicated through Circle and District administration, local channels and social media platforms.
2. The list of families receiving the gratuitous relief shall be published on the ASDMA and DDMA website as per norms.
